THE ELECTION.

Democracy Defeated

Harrison Elected President.

NO ROOSTERS TO CROW:

The STAR has no roosters to crow victory. We had laid them bye for the occasion, but the news by telegraph induced us not to display them with this issue. The fact is we are beat, and that badly. We have lost the Presidency and in all likelihood the lower house of congress.

fiarrison has carried New York by about 10,000 majority, and the Northern States that we expected to carry have gone Republican.

In St. Louis we lose three democratic congressmen, and according to the present outlook the lower house of congress will be republican by about 30 majority.

The natural inquiry is, what caused all this? The chief cause was the tariff usue. Our statesmen of the democratic party blundered all along the line, They howled for free trade. They counted without their host for all the manufacturing interests north, and the monied interests and a large majority lican ticket. They want protection. of the wage earners and mechanics considered that too much tinkering eral depression.

The Pressdent blundered in force ing the tariffissue. If he had remained silent on that subject, w were polled. For would have swept the country.

Factional troubles in New York also crippled us. Hill and Hewit and the Tammany democracy and other followers were much more intent upon electing their local favorites than looking after Cleveland and the national democracy, In fact they knifed Cleveland without remerse.

onism of some of our souther n leaders to anything looking to na. tional aid to public schools injured Bob Ingersol, "and all I have agains

Our statesmen were not equal to the occasion. They were bline leaders of the blind, and all alike fell into the ditch.

It is defficult to foretell what will be the policy of the new administration. Harrison is said to be cut off, and in their stead we shall ing, injuring and interfering with times possesses. It charbut we should make upour minds bear it. to bear our defeat becomingly and prepare ourselves for a successfu conflict next time.

One consolation is left us. In most of the states the state governments will be emocratic. Iilis nois and New York, while giving Harrison a majority, elect demo eratic governors.

In Tennessee we achieved a sweeping victory. R. L. Taylor, the people's favorite, is elected by 20,000 majority. The prohibition vote amounted to nothing. A few cranks persisted in running a candidate for governor. He will not run any him upon the track must know that so doing.
